

STATE OF WASHINGTON  
DEPARTMENT OF VETERANS AFFAIRS  
SOLE SOURCE POSTING

DECEMBER 6, 2023

The Washington State Department of Veterans Affairs (WDVA) contemplates awarding a sole source contract to ATS Inland NW LLC to provide support services for the Walla Walla Veterans Home's Alerton Energy Management System.

WDVA requires the proprietary Alerton Energy Management System in the Walla Walla Veterans Home skilled nursing facility to be serviced as soon as possible in order to update and maintain the system software and hardware and then keep it up to date, support facility staff with pre-season inspections and maintenance, and to develop a regular maintenance relationship.

WDVA will enter into a five (5) year contract with ATS Inland NW. The contract will be issued on or after December 22, 2023 and will continue for a five (5) year initial term. The cost of this five-year contract is \$106,425.79. WDVA may opt to extend the contract for an additional three (3) times in one (1) year increments, if required. WDVA determines that each optional additional one-year increment would result in slightly higher consideration being added to the total contract value.

Offerors contemplating the above requirements are required to submit capability statements detailing their ability to meet the state's requirements within five (5) working days of this announcement.

Capability statements should address the following state requirements:

- Ability to provide support services to an Alerton Energy Management System;
- Support services to take place at the WDVA's Walla Walla Veterans Home skilled nursing facility; and
- Support services over a five-year term shall cost less than \$106,500.00; and

In the absence of other qualified sources, it is the state's intent to make a sole source award of the contract. To submit capability statements or for questions, contact:
